INFORMATION FOR DISABLED VISITORS AND ACCOMPANYING PERSONS

Before your visit

Looking forward to spending a day at our theme park? Then let us extend to you our very warmest welcome. Holiday Park was designed very carefully, taking into account the needs of all of our visitors. This information leaflet has been prepared for you to ensure that your visit to our park is as enjoyable as possible and that your day with us will be unforgettable. Here we give you an overview of the facilities and services we have available for visitors with disabilities.

Parking

Holiday Park has designated accessible parking spaces available for visitors holding a disabled parking card. Parking fees apply in all car parks.

Tickets

Holiday Park offers a concessionary rate for visitors with a disability. These entrance tickets are only available at Holiday Park's Service Point. As our employees are not qualified to assess a visible or non-visible disability, we ask you to bring with you a valid declaration (*) from an impartial doctor stating that you are not able to visit the park and/or the attractions without aid and that you are not able to stand in queues for rides. This declaration is not required if you are confined to a wheelchair or are visually impaired. Free access will be granted to one helper per wheelchair user or visually impaired visitor. Any extra helpers will be required to pay the regular ticket rate. Disabled visitors will be given an armband when purchasing their tickets which entitles them to access rides via the ride exit. (*) The declaration should be no more than 12 months old.

Assistance Dogs

Assistance dogs are permitted in the park.

Wheelchairs

A limited number of wheelchairs are available free of charge at Holiday Park's Service Point. Visitors can make use of a wheelchair for the duration of their visit upon presentation of ID. If you would like to make use of this service, we suggest reserving in advance as the number of wheelchairs available is limited. Reservations at info@holidaypark.de

Additional help can be obtained at the park's first aid station in Pfalzer Dorf.

Shops – Restaurants

All of Holiday Park's shops and restaurants offer full disabled access.

Accompanying persons

Accompanying persons must be over the age of 15 and be able to assist their disabled companion if necessary. As our employees are not allowed to help with loading and off-loading from rides, the accompanying helper must be able to do this. Helpers must also be able to fully and correctly communicate instructions regarding access to rides, safety information, and information regarding evacuation procedures. Disabled guests must be accompanied onto rides and during rides by their helper.

Attraction Access

Holiday Park wants to make sure that as many attractions as possible are accessible to guests with disabilities. Unfortunately, for practical and safety reasons, this is not possible in all cases. Guests must, at all times, be able to safely sit and hold on during rides. For safety reasons, specifically in the unlikely event of evacuation from a ride, certain attractions require a good level of autonomous movement and the ability for self-help. Certain attractions require the full application of spatial and temporal awareness in order to guarantee the corresponding safety level during their operation. For these reasons, access to all attractions cannot be guaranteed for guests with physical disabilities, visual impairment or intellectual disabilities. There are no limitations for hearing impaired guests. For safety reasons, the maximum number of number of people with disabilities allowed on all rides at any one time is limited. Disabled groups also require a certificate from an (impartial) doctor. Due to limited capacity, larger groups may not access attractions through the alternative entrance. Please divide your party into smaller groups of max. 4 people (including helpers). For questions, please contact us at info@holidaypark.de.

Legislation

As a theme park operator, Holiday Park is subject to the requirements of two laws relating to the treatment of visitors with disabilities: the Anti-Discrimination Act and the requirements regarding the operation of amusement rides.

Based on past situations and experiences with rides that we operate, Holiday Park decided to carry out not just an internal risk assessment, but also a further assessment carried out by an external body – the Technical Monitoring Association (Technischen Überwachungsverein TÜV). Based on this, we strongly discourage **persons with intellectual, physical and/or visual impairments from using certain attractions**. If a helper together with a visitor suffering from one of the above-mentioned impairments insists on accessing the attraction, we will neither oppose it nor support it, on the basis of the Anti-Discrimination Act. In these cases, however, we require the presence of one accompanying person per car, necessary for a smooth evacuation in the event thereof. In addition, the respective accompanying person will be required to sign a declaration stating that they have been informed of the fact that Holiday Park **strongly discourages** the use of the ride based on the above-mentioned risk analyses, that they have acknowledged the information regarding access, as well as specific safety information and conduct in the case of an evacuation, and that the disabled person they are accompanying has fully and correctly understood all this information. The declaration, as well as further information, is available at Holiday Park's Service Point.
